

Juan Miguel Jaramillo Gaviria

AI-Native Full-Stack Architect | AI Development Lead | Tech Entrepreneur

Bogotá, Colombia | info@juanjaramillo.tech | +57 305 420 6139 | juanjaramillo.tech | LinkedIn

Professional Summary

Enterprise AI Development Lead and Full-Stack Architect with over 17 years of leadership experience spanning digital transformation, software engineering, and technology entrepreneurship. Expert in designing and deploying production-grade generative AI systems, orchestrating multi-agent frameworks, executing LLM fine-tuning (PEFT, RLHF), and managing hallucination risk. Highly proficient across Next.js 15/16, React 19, TypeScript, Python, and cloud-native architectures on Google Cloud Platform. Well before generative AI reshaped the global tech landscape, founded and scaled multiple successful digital and technology ventures. A pioneer in combining modern legacy-modernization expertise (CMS/WordPress) with AI-assisted high-velocity coding workflows.

Core Proficiencies & Technical Expertise

AI & Machine Learning: LLM Fine-Tuning (PEFT, RLHF), Advanced Prompt Engineering, Hallucination Risk Mitigation, Prompt Versioning (Git Flow), RAG Pipelines, Vector Databases.	Full-Stack Software Engineering: TypeScript, JavaScript, ReactJS/React 19, Next.js 15/16, Astro 5, Node.js, Python, SQL, WordPress Legacy Architecture (15+ years).
AI Frameworks & Tools: LangChain, LangGraph, CrewAI, Vertex AI Agent-to-Agent (A2A), n8n Workflow Automation, Gemini 2.5 Flash, Cursor AI IDE.	Cloud & Infrastructure: Google Cloud Platform (Cloud Run, Cloud Armor, BigQuery, Compute), Supabase, PostgreSQL, Docker, Vercel, PM2, Git.

Professional Experience

AI Development Lead - TopNetworks Inc. Feb 2025 – Jun 2026 | Remote / Bogotá, Colombia

Key Focus: Prompt Engineering, Hallucination Risk Management, GenAI Prompt Versioning with Git Flow, High-velocity AI-Native Workflows

- Spearheaded AI engineering strategy and full-stack architecture for high-performance publishing platforms serving markets across the US, UK, Mexico, and Latin America.
- Designed, built, and launched a core proprietary internal SaaS ecosystem leveraging rapid, spec-first, AI-native workflows (such as Cursor, agentic coding, and advanced prompt-driven rapid iteration):
 - EmailGenius:** Scalable, high-throughput AI email generation engine engineered with Vertex AI and PostgreSQL.
 - TrafficGenius:** Real-time invalid traffic detection and security intelligence platform utilizing BigQuery and Cloud Armor.
 - RouteGenius:** High-concurrency probabilistic traffic routing distribution engine built on Supabase, featuring multi-agent workflow integration in n8n via webhooks to automate traffic optimization.
 - Social Media Genius:** AI-driven social content generation application featuring a custom interactive canvas editor.
- Managed prompt versioning via Git Flow, structured hallucination risk frameworks, and deployed all services using Next.js 15/16, TypeScript, React 19, Astro 5, Tailwind v4, and Gemini 2.5 Flash on GCP.

Prompt Engineer & AI Consultant - Juan Jaramillo Nov 2022 – Present | Remote & On-Site (Independent Practice)

Key Focus: Prompt Engineering & Optimization, LLM Fundamentals, Hallucination Mitigation, UI/UX Design workflows

- Deliver specialized technical consulting on generative AI architecture, prompt engineering optimization, and custom LLM integrations for mid-market and enterprise clients, including the **Telefónica Movistar Foundation**, **Universidad Francisco Marroquín (Guatemala)**, and **Wundermann Thompson Miami**.
- Architect and build front-end and back-end environments for custom AI applications while directly managing UI/UX design workflows.
- Achieved documented client outcomes including up to a **46% increase in operational productivity** and a **66% reduction in monthly infrastructure** and operational overhead.

Co-founder & Director of Innovation - TRADEBOG S.A.S.

- Oversaw full-stack development, UI/UX systems, and technical product direction for Colombia's leading dropshipping and e-commerce platform.
- Designed and optimized complex digital advertising architectures, social media acquisition pipelines, and transactional backend workflows.

Co-founder & Operations Director - FreshWorks | Ideas Frescas

- Managed technical delivery, web architecture, and custom WordPress development for enterprise brands including **Grupo Herdez** and **El Corte Inglés**.
- Led cross-functional teams across three countries, managing digital product design, UI/UX engineering, and client transformation roadmaps.

Project Director - 2W Agencia Digital

Co-founder & Project Manager - La Quinta P Digital Agency

Dec 2020 – Jun 2023 | Bogotá, Colombia (On-Site)

May 2014 – Jun 2023 | Mexico, Colombia, Spain

Nov 2012 – Jan 2014 | Bogotá, Colombia

Aug 2009 – Oct 2012 | Bogotá, Colombia

Education & Certifications

Generative AI for Business: Driving Growth and Competitive Advantage
University of Toronto

Focus: AI strategy, innovation, ethics, decision-making, governance, and organizational transformation, with case studies from major companies.

Prompt Engineer with Emphasis on ChatGPT
Platzi

Focus: Advanced prompt structures, extension and plugin integrations, business use cases, and ethical LLM constraints.

Social Network Analysis: Digital Communication & Contents
University of Michigan

Skills: Digital Marketing, Content Strategy.

Bachelor's Degree in Advertising and Marketing
Universidad Central

Focus: Creative direction, art direction, copywriting strategy, and campaign design.

Dec 2022 – Feb 2023
Certified Diploma (Remote)

Feb 2023 – Apr 2023
Certified Course (Remote)

Sep 2013 – Dec 2013
Certified Course (Remote)

Feb 2002 – Nov 2007
Professional Degree (On-Site)

Languages & Interests

Languages: Spanish (Native) | English (Full Professional & Technical Proficiency)
Interests: Golf, Reading, Film, Music, Blogging, Writing, Technical Consulting, and Teaching.
