

Juan Miguel Jaramillo Gaviria

CMS & Full-Stack Architect | Headless Next.js Specialist | WordPress Expert

Bogotá, Colombia | info@juanjaramillo.tech | +57 305 420 6139 | juanjaramillo.tech | LinkedIn

Professional Summary

High-impact Full-Stack Web Architect with a rare combination of over 15 years of deep WordPress and CMS engineering layered with cutting-edge React 19, Next.js 15/16, and Astro 5 architectures. Recognized expert in monolithic legacy modernization, successfully executing decoupled, headless migrations that optimize web speed, Core Web Vitals, and SEO discovery layers. Expert in designing high-concurrency routing architectures, custom WordPress theme/plugin development, Tailwind CSS v4, and integrating custom generative AI workflows directly into CMS ecosystems to maximize content velocity and monetization.

Core Proficiencies & Technical Expertise

CMS & WordPress Engineering: WordPress (15+ Years Core, Themes, Plugins), Headless/Decoupled CMS, Monolith Modernization, REST APIs, GraphQL, WooCommerce, PHP (Advanced).	Backend, Cloud & Databases: Node.js, Python, Supabase, Google Cloud Platform (Cloud Run, Cloud Armor, BigQuery), PostgreSQL, SQL, PM2, Docker, Git.
Modern Frontend Stack: React 19, Next.js 15/16, Astro 5, Tailwind CSS v4, HTML5, CSS3/SASS, TypeScript, JavaScript (ES6+), UI/UX Engineering.	Performance & AI Integration: Core Web Vitals Optimization, Cloudflare/CDN, n8n Automation, Prompt Engineering for Content CMS, Gemini 2.5 Flash, Cursor AI.

Professional Experience

AI Development & Full-Stack Architect Lead - TopNetworks Inc. Feb 2025 – Jun 2026 | Remote / Bogotá, Colombia

Key Focus: Decoupled & Headless Frontends, Next.js 15/16, React 19, Astro 5, High-Concurrency Web Architectures, Tailwind v4

- Directed full-stack web architectures and content modernization strategy for digital publishing platforms serving the US, UK, Mexico, and LATAM markets.
- Designed and deployed high-performance front-end applications built on React 19, Next.js 15/16, Astro 5, and Tailwind CSS v4, connected to decoupled API gateways:
- RouteGenius:** Built a high-concurrency traffic routing engine on Supabase with a custom-developed Next.js front-end, dynamically managing traffic distribution across diverse marketing discovery layers and CMS nodes.
- EmailGenius:** React 19 interactive generative email interface utilizing Vertex AI and PostgreSQL backends.
- Social Media Genius:** AI-driven content generation app incorporating a highly interactive Next.js 15 canvas editor and customized CSS styling.
- TrafficGenius:** Security platform leveraging BigQuery and Cloud Armor with real-time Next.js reporting dashboards.
- Successfully migrated high-traffic monolithic publishing architectures to headless Astro 5 and Next.js, yielding dramatic improvements in site load times, Core Web Vitals, and SEO-driven organic traffic.

Prompt Engineer & AI-CMS Consultant - Juan Jaramillo Nov 2022 – Present | Remote & On-Site (Independent Practice)

Key Focus: CMS Legacy Modernization, Headless Next.js Migrations, AI-Assisted Editorial Workflows

- Consult with mid-market agencies and enterprise clients—including the **Telefónica Movistar Foundation**, **Universidad Francisco Marroquín**, and **Wundermann Thompson Miami**—on CMS modernization, WordPress migrations to headless Astro/Next.js stacks, and custom AI content generation integrations.
- Designed and built custom REST/GraphQL API connectors bridging legacy WordPress backends with ultra-fast modern frontend React frameworks.
- Drove major client operational and performance improvements, including up to a **46% increase in editorial team productivity** and a **66% reduction in web hosting overhead** via serverless web architecture.

Co-founder & Director of Innovation - TRADEBOG S.A.S.

- Led technical product development and full-stack engineering for Colombia's leading dropshipping and e-commerce platform.
- Engineered custom WooCommerce API endpoints, transactional database schemas, and digital acquisition channels to support tens of thousands of daily active users.

Dec 2020 – Jun 2023 | Bogotá, Colombia (On-Site)

Co-founder & Operations Director / WordPress Architect - FreshWorks | Ideas Frescas

- Spent over 9 years architecting custom WordPress-based systems, custom plugins, and custom themes for world-renowned brands such as Grupo Herdez and El Corte Inglés.
- Managed multi-country cross-functional teams in digital agency execution, from deep PHP-backend customizations to advanced frontend UI/UX integrations.
- Designed scalable web publishing networks and automated content syndication pipelines for enterprise-level CMS installations.

May 2014 – Jun 2023 | Mexico, Colombia, Spain

Co-founder & Project Manager / WordPress Developer - La Quinta P Digital Agency

- Led digital project design, custom WordPress theme development, PHP customizations, and front-end CSS/HTML implementations for regional SME clients.

Aug 2009 – Oct 2012 | Bogotá, Colombia
