

Juan Miguel Jaramillo Gaviria

AI-Native Full-Stack Architect | Vibe Coder | Product Engineer

Bogotá, Colombia | info@juanjaramillo.tech | +57 305 420 6139 | juanjaramillo.tech | LinkedIn

Professional Summary

Pioneering AI-Native Full-Stack Architect with over 17 years of leadership experience, specializing in the modern "vibe coding" paradigm. Master of high-velocity, spec-first AI engineering workflows leveraging modern AI IDEs (Cursor, Copilot) and multi-agent execution systems to design, build, and deploy production-grade software ecosystems at 10x traditional speed. Renowned for shipping scalable, secure, and revenue-generating SaaS platforms by translating plain-text design specifications into robust, production-grade architectures. Deeply proficient across Next.js 15/16, React 19, Astro 5, Tailwind CSS v4, TypeScript, Python, and Google Cloud Platform.

Core Proficiencies & Technical Expertise

Vibe Coding & AI Workflows: Cursor AI IDE, Spec-First AI Builds, Structured Prompts, Code Synthesis, Prompt-Driven Rapid Prototyping, AI-Driven Refactoring, Agentic Code Generation.	AI-Native Full-Stack Engineering: TypeScript, JavaScript, ReactJS/React 19, Next.js 15/16, Astro 5, Tailwind CSS v4, Python (Core), Node.js, SQL, PostgreSQL, Supabase, Legacy WordPress (15+ yrs).
AI Stack & Agentic Frameworks: Gemini 2.5 Flash, Vertex AI, LangChain, LangGraph, CrewAI, n8n Automation, Vector Databases, Prompt Versioning with Git Flow.	Infrastructure & CI/CD: Google Cloud Platform (Cloud Run, Cloud Armor, BigQuery), Supabase, Docker, Vercel, PM2, Git, GitHub Actions.

Professional Experience

AI Development Lead - TopNetworks Inc. Feb 2025 – Jun 2026 | Remote / Bogotá, Colombia

Key Focus: Vibe Coding Workflow, Cursor IDE, Spec-First Synthesis, Multi-Agent Orchestration, Production-Grade Deployments

- Spearheaded AI engineering strategy and full-stack architecture, shifting development entirely to an AI-native paradigm.
- Architected, vibe-coded, and launched TopNetworks' entire proprietary internal SaaS ecosystem from plain-text specifications, achieving extraordinary shipping velocity and direct-to-production deployment:
- EmailGenius:** High-throughput AI email generation engine engineered with Vertex AI, Next.js 15/16, React 19, and PostgreSQL; fully synthesized and iterated in record time using Cursor IDE.
- RouteGenius:** High-concurrency traffic routing engine on Supabase; integrates multi-agent n8n workflows via concurrent webhooks. Vibe-coded to process high volumes of live web traffic with zero latency.
- TrafficGenius:** Real-time invalid traffic detection and security platform using BigQuery and Cloud Armor; optimized using AI-assisted query design.
- Social Media Genius:** AI-driven content generation app with an interactive canvas editor; build accelerated by AI-native frontend tooling (Tailwind CSS v4).
- Maintained strict engineering discipline: paired rapid vibe coding with structured Git Flow versioning, comprehensive automated prompt validation, and rigorous architectural checks.

Prompt Engineer & AI Consultant - Juan Jaramillo Nov 2022 – Present | Remote & On-Site
(Independent Practice)

Key Focus: AI Developer Experience (DevEx), Cursor IDE Mentoring, High-Velocity Workflows, AI-Assisted Architecture

- Advise enterprise and mid-market organizations on adopting AI-native development workflows, including training developer teams on Cursor IDE, structured code-generation prompting, and spec-first software design.
- Consulted for the **Telefónica Movistar Foundation**, **Universidad Francisco Marroquín**, and **Wundermann Thompson Miami**, establishing custom-designed rapid-prototyping environments.
- Delivered outstanding operational results, accelerating client product development cycles by up to 10x, driving a **46% increase in overall team productivity**, and reducing hosting and API infrastructure overhead by **66%**.

- Co-founder & Director of Innovation - TRADEBOG S.A.S.**
 - Led technical product direction and rapid full-stack engineering for Colombia's top dropshipping and e-commerce network.
 - Pioneered low-code and early rapid-development integrations to streamline high-throughput transaction routing and inventory updates.

Dec 2020 – Jun 2023 | Bogotá, Colombia (On-Site)
- Co-founder & Operations Director - FreshWorks | Ideas Frescas**
 - Managed technical delivery, rapid web builds, and agile client transformation roadmaps across three countries.
 - Deployed highly optimized custom architectures for enterprise clients, leveraging rapid template iteration and modular component development.

May 2014 – Jun 2023 | Mexico, Colombia, Spain

Education & Certifications

- Generative AI for Business: Driving Growth and Competitive Advantage**
University of Toronto

Focus: AI strategy, innovation, ethical AI frameworks, governance, and rapid organizational adaptation.

Dec 2022 – Feb 2023
Certified Diploma (Remote)
- Prompt Engineer with Emphasis on ChatGPT**
Platzi

Focus: Advanced prompt structures, extension and plugin integrations, business use cases, and LLM constraints.

Feb 2023 – Apr 2023
Certified Course (Remote)
- Social Network Analysis: Digital Communication & Contents**
University of Michigan

Skills: Network dynamics, algorithmic content distribution, and strategic digital messaging.

Sep 2013 – Dec 2013
Certified Course (Remote)
- Bachelor's Degree in Advertising and Marketing**
Universidad Central

Focus: Creative direction, art direction, copywriting strategy, and campaign design.

Feb 2002 – Nov 2007
Professional Degree (On-Site)

Languages & Interests

Languages: Spanish (Native) | English (Full Professional & Technical Proficiency)
Interests: Vibe Coding Research, Rapid Prototyping, DevEx Optimization, Blogging, Tech Mentorship.
